REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims address a method, apparatus, and computer program for computed tomography or CT weight generation where either a specific mathematical weight based on the central view angle, the fan angle, and a maximum half fan angle is calculated (independent claims 1, 11, and 25) or a specific mathematical weight based on the an actual source trajectory and a virtual source trajectory (independent claim 18). These features are neither shown nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Silver *et al.* US 2003/0123614 A1 shows virtual fan angles, and Sivers US 6,072,851 a, and Hu US 5,469,487 A show various weighting schemes.
